The individual elements of the badge represents:

- The sun shedding its light on all that we do. A reminder that Cub Scouts should be a light for those around them.
- The seven rays of the sun representing the seven days of the week. A reminder that Cub Scouts should do their best every day.
- The arrow points to the right, which is symbolic of everything which is straight and true. Just as Cub Scouts should be straight and true in their lives. It also points forward to the trail of Boy Scouting ranks and higher challenges.
